Dear Onkaparinga Rambler Car Club Member,

In addition to the AGM, and election of club executives and representatives, there is another important issue to be addressed.

Over the years, as a club we have run a number of successful enduro style off road events at both Mulpata and more recently Parilla. While a good number of members have been involved in the pre event planning, event organization and on the day running of the event, the interest seems to have dropped significantly. This may be as a subsequence of our increasingly busy lifestyle, but whatever the reason, it is becoming harder and harder to commit to a successful event each year.

As a result of discussion at our last club meeting, I volunteered to ask the hard questions, to which I encourage discussion and response from all members.

Do we, the Onkaparinga Ramblers Car Club, wish to continue to hold a round of the SAORRA Trophy Series?

If so, in what format should the event take place?

What changes would you like to suggest for 2011 and beyond?

As a club member, if we decide to hold the event, please indicate your commitment to help the Event Committee stage a successful round in 2011 and beyond. Remember, there is more than just running the event on a weekend in May. There is much more work both before and after to ensure it and subsequent events go off without a hitch.

Regards,

Trevor Nash
President (for now),
Onkaparinga Ramblers Car Club
